Occupational and Industrial Medicine

**Injury Rehabilitation,
Wellness and Recovery**

**Your Business Partner
in Health Care**

The best treatment for any industrial accident is an active prevention program.

Each year, on-the-job injuries result in hundreds of thousands of dollars in increased health care costs, both through lost workdays and escalating workers' compensation expenses. As one of the area's largest employers, Faith Regional Health Services understands the impact of on-the-job injuries and how important your employees are to the overall success of your organization. That is why we have developed the most comprehensive occupational and industrial medicine program to get your employees back to work – pain free, at 100% capacity and as soon as possible – saving your organization both time and money.

Comprehensive Health Care

All of your employees' medical needs can be accessed at one facility. We offer:

- Therapy and work-hardening services
- Centralized, convenient scheduling
- Laboratory and imaging services
- Woodland Park Medical Clinic
- On-site hearing tests
- Respirator Fit Testing
- Pulmonary Function Testing

Therapy Services

Our therapy programs can help prevent illness, maintain health and provide early intervention and rehabilitation whenever injuries or health problems occur on the job.

- Occupational therapists specialize in upper extremity injuries, with a focus on hands, wrists and elbows.
- Physical therapists have expertise in treating spine, shoulder and lower extremity injuries.

This multi-disciplinary approach ensures that your employees will be treated by an expert regardless of their injury.

Customized Services

Customizing services tailored to your business helps to ensure that your employees are able to meet the demands of their jobs safely and productively. Our customized therapy services include:

- Job-tailored pre-employment screens
- Customized Work Hardening Program
- Individualized attention at each visit
- Educational injury prevention programs and home treatments for general aches and pains

Team Approach To Care

We involve all members of your team:

- Safety Officer
- Workers' compensation case manager
- Employee
- Health care provider

We help ensure your employees are able to return to work as soon as possible.

Other Services

Laboratory

Faith Regional offers a broad scope of laboratory testing through our Inpatient and Outpatient services. For companies instituting a workplace wellness program, conducting health screening blood tests can benefit both employees and the organization. Call Rehabilitation Services for more information on screenings available or to schedule an employee screening at your facility.
